HLTFA301B APPLY FIRST AID COURSE

YOU COULD SAVE A LIFE!

"Last year 636,000 people experienced a work-related injury or illness."*

Whatever situation you're in, whether at work, at home, at play or simply out and about, being able to identify foreseeable, dangerous situations and plan appropriately for them could prevent accidents and even save a life. Someone with current First Aid skills is better equipped to deal with these situations and provide much needed help when necessary.

Crusaders Training understands the time pressures on busy people so delivers a ONE DAY Apply First Aid course (formerly Senior First Aid) to ensure your ability to provide appropriate care when its needed most. This course also contains scenarios relevant to real life situations.

TESTIMONY

"Thank you so much for equipping me with the practical First Aid skills I need! The course content was very clear, well presented and the focus on learning to competency has given me greater confidence in responding to emergency first aid situations. I hope I never have to put what I've learned into practice, but if I do, I will be well prepared, thanks to Crusaders Training."
