

HLTA301B APPLY FIRST AID COURSE

SPECIALLY DESIGNED FOR SCHOOLS

YOU COULD SAVE A LIFE!

"Each year about 350 Australian children are killed and 60,000 hospitalised by unintentional injuries – the kind often referred to as accidents. Many of these are easily prevented by simple means."

Knowing First Aid means you could save a life!

All teachers have a duty of care towards the students under their care. This duty requires teachers to identify foreseeable, dangerous situations and plan appropriately for them. With children, accidents are definitely foreseeable! A teacher with current First Aid skills is better equipped to deal with these situations and save lives.

Crusaders Training understands the time pressures on busy teachers so delivers a ONE DAY Apply First Aid course (formerly Senior First Aid) to ensure your staff are able to provide appropriate care when its needed most. This course was designed by teachers for teachers and contains scenarios relevant to real school situations.

TESTIMONY

"Thank you so much for equipping me with the practical First Aid skills I need as a teacher! The course content was very clear, well presented and the focus on learning to competency has given me greater confidence in responding to emergency first aid situations at my school and elsewhere. I hope I never have to put what I've learned into practice, but if I do, I will be well prepared, thanks to Crusaders Training."
